

# The WiSens range

## Compact and low-power autonomous loggers

### High-accuracy measurement:

- **Temp: accuracy 0,005°C**
- **Depth: 0,15%**
- **Salinity: 0,04mS/cm, Turbidity: < 2%**

### High-resilience and robustness:

- Specific material high-shock resilience
- Rugged flash-memory storage
- Additional protections for trawlers

### High versatility and ease of use:

- Wireless Web Embedded Interface
- Flexible mission scheduling
- Sampling rates up to > 2Hz depending on parameters
